

RADDLE

Fits in the beater (2 dents per inch)
Used to spread the warp when
beaming. It has an open top which
can be covered with top of beater.

6258-1000	Voyageur, Dorothy 15.75" (40 cm)	\$35.00
6258-2000	Meco 22" (56 cm)	\$57.00
6258-9001	Compact 24"	\$57.00
6258-9024	Voyageur, Dorothy 24" (60 cm)	\$57.00
6258-4000	36"	\$66.00
6258-5000	45"	\$83.00
6258-6000	60"	\$99.00

PADDLE

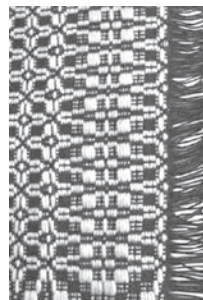

Used for warping
with more than
four ends (up to
twenty threads).
You make the
cross by sliding the
yarn up or down in
the slot.

6148-1000 \$30.00

5" Thread Clipper

Lightweight and very sharp!
Right or left handed!

Can be used on the loom
or for finishing
woven fabric.

**6148-1001
\$20.00**

DROP SPINDLE

A beautifully balanced spindle,
in naturally finished hard wood.

Whorl : 3½" dia. (9,5 cm)

Shaft: 14" long (35,5 cm)

6170-2000 \$48.00

WARP-CROSS LOCK

developed by Carl Heaman-Warne

Used to stabilizing and locking the warp cross from the warping board or mill. Simple and easy to use, it gives weavers piece of mind, even if someone stores the warp chain.

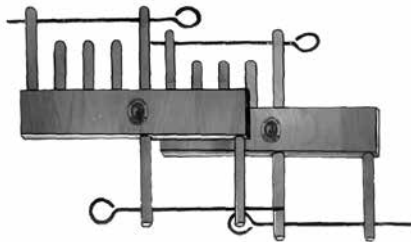

6147-2000 Set of 2 Cross-Lock \$50.00

Used on counter-balanced and countermarch looms to keep shafts at same level and distance while threading.

6147-3000 \$35.00

TREADING HELPER

Used as a harness stabilizer and a support for the lease sticks and raddle. It holds the cross at a convenient height during the threading. May be used in a variety of configurations as shown below.

6147-4000 \$94.00 (2 pieces)
